

# Orientation Class

Spring Boot 0 To 1

Spring Boot 0 To 100

# In Today's Class

- Course structure
- How the classes will work
- Utilizing the course
- Get Discord Server Access
- Asking Doubts

# Spring Boot 0 To 100

Spring Boot 0 To 1

8 Weeks  
1 Major Project

Spring Boot 0 To 100

16 Weeks  
2 Major Projects

Spring Boot 1 To 100

8 Weeks  
1 Major Project

# How this course will work

Get new content  
Every week

Watch lectures and  
Solve Homework

Make Notes!

Got stuck? Ask  
doubts

Build the major project  
In LIVE classes

Build the assignment  
Project

# Best way to Utilize this Course

Go through the whole week's lectures

Try to replicate the lecture's code yourself

Solve Homework

Implement the Assignment

Ask Doubts

Use ChatGPT, Docs

DSA is Important too

# Get Discord Server Access

- Coding Shuttle Discord Server will be used for doubts solving, notifications, connecting with your batch mates, etc.
- Use your Discord server access OTP to gain access. This OTP has been provided to you via email, or on your Classroom dashboard.
- Go to the **#get-server-access** channel in the Coding Shuttle Server and copy-paste your OTP.

# Asking Doubts

- Use the doubts-forum to ask lectures/course related doubts.
- For any other doubts/queries, use Email. Contact our team at [contact@codingshuttle.com](mailto:contact@codingshuttle.com)
- Use the format provided to you in the doubts forum to ask your doubts.
- Mark the doubt as solved by adding the Solved Tag once it is resolved.
